EXPERIENCE

Java Full Stack Developer Intern May 2024 - Aug 2024
AI Variant *Bangalore, Karnataka*

- Designed the overall architecture, developed the back-end services, and built the front-end user interface.
- Overcame a data integrity issue by implementing proper validation and error handling.

ReactJS Developer Intern April 2023 - June 2023
Dot Com Infoway *Madurai, Tamil Nadu*

- Developed strong interpersonal skills by nurturing positive and collaborative relationships with others
- Collaborated with cross-functional teams to develop seamless integration of APIs, improving data flow within applications

PROJECTS

Saffron Stays: A centralized platform using Java, Spring Boot, React, CSS, HTML, and Tailwind CSS can efficiently manage hotel reservations, amenities, and services. (Saffron-Stays)

Movie in: Perfect components with the help of React that include a Groovy search form and a results section that parades your movie favorites. Deeper dive with the Movie Details component, grab the scoop, and stream the trailer, making your search experience a blockbuster hit. (Binge-watch)

Spice it up: All your tasty triumphs on display! From appetizers to desserts, see each dish with its name, a mouth-watering description, and a snapshot to build React. (MakEat)

Cloudsy: A Web app that displays the current city's weather using HTML for structure, CSS for styling, and JavaScript for fetching data from an API. (Weather-app)
